*Thank you for your interest in being part of the show! Students who participate on the crew will help create the "magic" that allows the story to be played out on stage. This includes painting scenery, creating props, helping actors during the performances and running the show. "Running the show" is a theatre term that refers to the movement and placement of all scenery and props before, during and after the show backstage by a group of Ninja-like students! They must be quick, quiet and focused backstage so as not to distract the audience from the actors. Members of the crew will attend work calls during the week, dependent on parent volunteer availability. Crew members must be committed to attending all rehearsals in the final two weeks of the show as well as all performances. Due to limited space backstage, the crew will be limited to 8 students. Get your application in quickly!*
